## Professional Summary

---

Computer Science and Engineering student with a CGPA of 9.77. Experienced in building AI-powered systems and full-stack web applications using Python, Java, React, and FastAPI. Developed deployed platforms including real-time AI conversation analytics and customer behavior dashboards. Interested in software engineering, AI systems, and scalable product development.

## Education

|                                                                                                                               |                |
|-------------------------------------------------------------------------------------------------------------------------------|----------------|
| <b>KL University, Hyderabad</b><br>B.Tech in Computer Science and Engineering<br>CGPA: 9.77 / 10<br>Expected Graduation: 2028 | 2024 – Present |
| <b>Narayana Junior College</b><br>Intermediate (MPC) — 97.4%                                                                  | 2022 – 2024    |
| <b>Ravindra Bharathi High School</b><br>SSC — CGPA: 10 / 10                                                                   | 2022           |

## Technical Skills

---

- **Programming Languages:** Python, Java, C, JavaScript, TypeScript
- **Front-end Development:** HTML, CSS, React.js, Next.js, Tailwind CSS
- **Backend Development:** Node.js, Express.js, FastAPI, REST APIs, WebSockets
- **Databases:** MySQL, MongoDB, SQLite
- **AI & Data Analytics:** NumPy, Pandas, Scikit-learn, Machine Learning
- **Tools & Platforms:** Git, GitHub, VS Code, Vercel, Render, Railway
- **Core Computer Science:** Data Structures, Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks
- **Soft Skills:** Teamwork, Problem Solving, Communication

## Coding Platforms

---

- **LeetCode:** [leetcode.com/u/IJLMMOwY4o](https://leetcode.com/u/IJLMMOwY4o)
- **CodeChef:** [codechef.com/users/klh2420030604](https://codechef.com/users/klh2420030604)
- **GitHub:** [github.com/tonyboss365](https://github.com/tonyboss365)

## Projects

---

- **AweTales Sentinel — Real-Time AI Conversation Intelligence System**

GitHub: [github.com/tonyboss365/awetales-sentinel](https://github.com/tonyboss365/awetales-sentinel)

Live: [awetales-sentinel.vercel.app/login](https://awetales-sentinel.vercel.app/login)

- Built a real-time AI analytics platform for monitoring conversations.
- Implemented intent detection, sentiment analysis, and escalation alerts using LLM APIs.
- Developed real-time backend using FastAPI and WebSockets.
- Deployed frontend on Vercel and backend on Render.

- **RevIntel — Customer Churn Analytics Platform**

GitHub: [github.com/tonyboss365/revintel-platform](https://github.com/tonyboss365/revintel-platform)

Live: [revintel-platform.vercel.app](https://revintel-platform.vercel.app)

- Built a customer analytics dashboard to monitor user activity.
- Implemented data visualization for churn prediction insights.

- **Campus Share — Student Resource Sharing Platform**

GitHub: [github.com/tonyboss365/campus-share](https://github.com/tonyboss365/campus-share)

Live: [campus-share-eight.vercel.app](https://campus-share-eight.vercel.app)

- Built a collaborative platform for sharing academic resources.
- Designed responsive front-end architecture and authentication flows.

- **Peer-to-Peer File Sharing Application**

GitHub: [github.com/tonyboss365/p2p-sharing](https://github.com/tonyboss365/p2p-sharing)

- Implemented browser-based peer-to-peer file transfer using WebRTC.
- Built signaling system using Node.js and Socket.IO.

- **Library Management System**

- Developed a database-driven application to manage books and users.
- Implemented book search, borrowing, and return management.

Technologies: Java, MySQL

- **CFO Helper — Financial Analytics Tool**

GitHub: [github.com/tonyboss365/CFO-HELPER](https://github.com/tonyboss365/CFO-HELPER)

Live: [tonyboss365.github.io/CFO-HELPER](https://tonyboss365.github.io/CFO-HELPER)

- Built a financial analytics tool for interpreting financial datasets.
- Designed interactive UI components for financial insights.

- **Front-end Hobby Projects**

GitHub: [github.com/tonyboss365/fedf-projects](https://github.com/tonyboss365/fedf-projects)

Live: [tonyboss365.github.io/fedf-projects](https://tonyboss365.github.io/fedf-projects)

- Built interactive projects including Bubble Pop Game, Quiz App, BMI Calculator, Password Generator, and Quote Generator.
- Implemented DOM manipulation, responsive layouts, and dynamic UI behavior.

## Hackathons

---

- Rampage Hackathon — KLH University
- AI Summit Hackathon — Telangana's Largest AI Hackathon
- Hack Ananta — Google Developer Groups Hackathon
- Smart India Hackathon (SIH) 2025 — National Level Participant
- Smart India Hackathon (SIH) 2024 — National Level Participant

## Relevant Coursework

---

Data Structures, Object-Oriented Programming, Database Management Systems, Operating Systems, Artificial Intelligence and Machine Learning, Linear Algebra and Calculus, Discrete Mathematics, Probability and Statistics

## Interests

---

Front-end Development, Artificial Intelligence, Data Analytics, Financial Technology (FinTech), Product Development, Technology Marketing, AI-Assisted Coding, Digital Content Creation (Photo & Video Editing), Rapid Prototyping
